Founder-led security, readiness, and continuity for government missions — protective programs designed, assessed, and strengthened to withstand scrutiny.

Apex Gama Defense Solutions is a founder-led security, readiness, and operational-support company. We design, assess, and strengthen protection, training, and resilience programs for government agencies, prime contractors, and mission-driven organizations — with senior accountability held close to delivery.

CORE COMPETENCIES

- **Protective program advisory & assessment** — physical-security and vulnerability assessment, protective concepts, governance, and SOP suites.
- **Training, exercises & readiness** — curriculum design, instruction, tabletop through full-scale exercises, and after-action review.
- **Risk & resilience** — risk and threat analysis, continuity of operations, and emergency action planning.
- **Facility & operations support** — program management, readiness, and coordination across sites and providers.

DIFFERENTIATORS

- Founder with **17+ years** across special operations, protective operations, maritime security, and security-program leadership.
- Programs managed across **35+ international locations** with a documented zero-incident record.
- Senior accountability close to delivery; vetted specialist capacity added against each engagement's requirements.
- Documented, defensible work products — assessments, plans, SOPs, and exercise and after-action reports.

REPRESENTATIVE DELIVERABLES

- Security and vulnerability assessments with prioritized findings matrices.
- Protective-program frameworks, governance matrices, and SOP suites.
- Exercise plans, training evaluations, and after-action reports.
- Continuity and emergency action plans with implementation roadmaps.
